Double Podium from Ekin Ereke, Supported by Team Akfen İnşaat, at the International Gebze MTB Cup

Supported by Team Akfen İnşaat, national mountain biker Ekin Ereke achieved a significant success by stepping onto the podium in two different disciplines at the International Gebze MTB Cup held in the Gebze district of Kocaeli.

Supported within the scope of the Team Akfen İnşaat project, which was implemented by Akfen İnşaat to support the development of young and national athletes, national mountain biker Ekin Ereke added a new one to her successful performances in the international arena.

Competing in **the International Gebze MTB Cup held in the Gebze district of Kocaeli, Ekin Ereke completed the weekend with two podium degrees** by competing in two different disciplines of mountain biking that require both speed and endurance.

Competing against strong opponents on the challenging track, Ereke took the podium by **ranking 2nd in the XCC Short Track Race Elite Women category; while obtaining 3rd place in the XCO Cross-Country Olympic / Long Track Elite Women category.**

Maintaining her steady rise with the tempo she displayed on the short track and the endurance performance she showed on the long track, Ekin Ereke also continued her successful representation among the athletes supported by Team Akfen İnşaat.

Having previously drawn attention with the degrees she obtained in national and international competitions, Ekin Ereke demonstrated her rise in the mountain biking discipline once again with her double podium success at the International Gebze MTB Cup. Ekin Ereke's double podium success at the International Gebze MTB Cup became one of the strong reflections of the support Team Akfen İnşaat offers to the development journey of young and national athletes.
